

# FOREST MOOD LIGHT(BEAR & DEER) +Cellphone Wireless Charger

MF918

## FEATURES

- Forest mood light is activated by SLAP.
- Warm light, bright night or flicker multi-color light mode to choose what you want
- It can also be activated on/off when charging your cellphone to act as LED charging status indicator
- Just lay your compatible cellphone onto the wireless charger to power up, the “forest” LED light will indicate that your device is properly charging
- This wireless charger has been designed specifically to compatible cellphone with wireless charging system
- Forest lampshade can be freely rotated

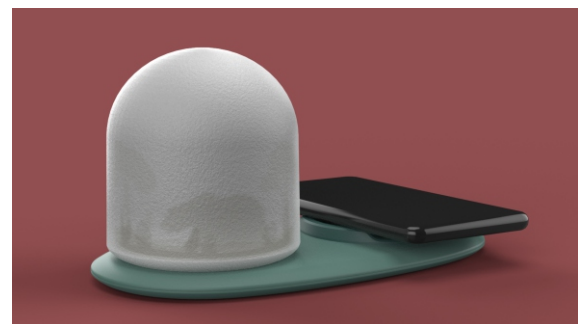

## CREATING A 3D WONDERFUL SCENE

It is a engraved style inside the foggy lampshade. The lampshade has a pattern in 360 degree. This design will be a relative scene every 180 degree (semicircle). The first half of the pattern is a bear in near sight and a deer in the distant sight; while the latter half scene is in reverse a deer in near sight and a bear in the distant sight, creating a relative relationship and a wonderful 3D imaginary dream world under color changing LEDs.

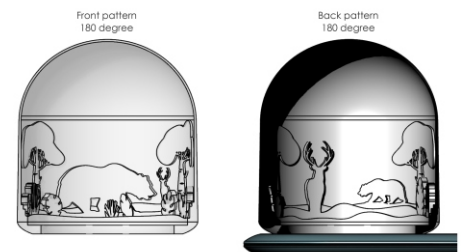

## SPECIFICATIONS:

- Power Supply: USB Type C 5V-12V/DC 1.5A Max
- LED Beads: 4 RGB, 6 White Lights
- Rated LED Power: 1.5W
- LED Color :  
Warm White => Strong White => 7 Colors => Off
- Illumination: ~ 150lm
- Colour temperature: White – 6000K, RGB Color 1000K-4000K
- Wireless Charger Output: 10W  
Charging Efficiency: 75%
- Product Dimension: (Base) 200 x 113 x 33.2 mm & (Forest )  $\phi$  84 x 90 mm
- Product Weight: g

**NOTE :** For best results, place your cellphone on the center of the wireless charging pad to ensure stable charging.
