

AUTOMOBILE ELECTRONICS

PCC2014 Multi-function Car Jump Starter (Upgraded Version with Strong Magnet & Intelligent Jumper Cord)

UNIQUE cylindrical can shape for proper storage – patented design)

Jump Start Your Vehicle Without All the Hassle - Comes with a jumper cable cord that easily plugs into the battery booster.

- Convenient & powerful, small & compact, just the size of a soft drink can that can easily be fitted nicely into the drink holder of your car.
- Multi-functions (different functions can work simultaneously):
1) Trigger your automobile, 2) mobile charger, 3) warmer, 4) illumination, 5) SOS
- Power type lithium polymer battery pack of discharge over 20C
- Adopted with advanced intelligent circuitry and multiple security protection design: Over-charge, over-discharge, short-circuit, over-heat protection
- Perfect companion at all the time while you are driving on camping expeditions, travel, riding, boating, and during cold winter months.
- By magnetic adhesion, it can be adhered hand-free to any flat metallic surface at right angle.

Technical Data

Battery capacity: 4,000mAh / 3.7V x 3 = 12,000 mAh
Input : MAX = 2A/12V - 24V

Charge time: 2.5-3H (Under car start condition)
Output current : MAX = 5A/5V (total output current via 4 USBs)

Output time: 1.5H (Under the maximum output current in an independent work mode)

Output interface: Based on Android and IOS system and universal charging interface to ensure different mobiles and tablets with charging rate same as that of original charger.

Performance Reference

Vehicle Jump Start

On a full charge, the Car Jump Starter can start up to 12 cars. That's a lot of power.

Charge Mobile

1. Samsung S6 (2550 mAh) : Charge 3 times
2. iPhone 5S (1560 mAh) : Charge 5 times (500% more battery life for smartphones)
3. iPhone 6/6S (1715 mAh) : Charge 4 times
4. iPhone 6/6S plus (2750 mAh) : Charge 2.7 times
5. iPad mini 3/4 (19 Whr) : Charge 1.3 times
6. iPad air 2 (27.3 Whr) : Charge 1.1 times
7. Blackberry Z10 (1800 mAh) : Charge 4 times

Strong Magnet
By magnetic adhesion, PCC2014 can be adhered hand-free to the flat metallic surface in vertical direction

Upgrade

Flashlight & Warning Lights

Ultra-bright LED light with high & low beam, flash, strobe and SOS modes that can run continuously for up to 12 hours (strong) and 25 hours (low) on single charge.

Warmer (Extra fast startup time of about 2 seconds, 45 degree C)

Continuous upto 8 hours (under environmental temperature 25 degree Celsius)

Strong Magnet

By magnetic adhesion, PCC2014 can be adhered hand-free to the flat metallic surface in vertical direction

Accessories Included:

Car charger cable

Intelligent Jumper Cord

Size: 66mm x 157 mm
Weight: 637.5g

GIFT ELECTRONICS

BUN JJ Small Power Stick (Upgraded version 5,000 mAh)

- BUN_JJ is the upgraded version of bunny power stick of more than doubled capacity compared with that of bunny version (BUN2014A/B), yet the size is the same.
- It is a tiny tubular power bank, external battery pack (5,000 mAh) and capable of fully charge 1 time of iPhone 6 Plus.
- Made to power your phone anytime and small enough to stay with you at all times without any inconvenience.
- BUN_JJ yet small but powerful.
- Portable and Convenient
- Charges any micro-USB or Apple Lightning device (IN/OUT : 5V 1A)

JJ BUNNY

MAC2014 Small Round Power Bank

- MAC2014 is a tiny, external battery pack (2,400 mAh) roughly the size of a macaron cake, yet capable of providing even the largest phones up to 6 hours of additional talk time.
- Made to power your phone though emergency situations and small enough to stay with you at all times without any inconvenience.
- Ready to power your phone whenever you need to stay connected. Never miss an important phone call or urgent email.
- MAC2014 is the perfect balance of power and size.
- Portable and Convenient
- Charges any micro-USB or Apple Lightning device (IN/OUT : 5V 1A)
