

# Portable & Personal AIR STERILIZER & DEODORIZER

Healthier | Portable

\*\*Formaldehyde Removal Rate >95%; Bacteria Removal Rate >50%; Ozone within limit (Test reports provided upon request)

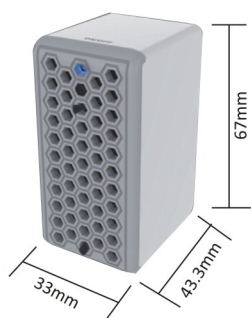

## FEATURES

- Adopted plasma ionic sterilization & deodorization technology,
- Safe and reliable, without any chemical substances;
- Total ion concentration > 20,000,000 pcs per cm<sup>3</sup>;
- Maintenance-free, no consumables, no secondary pollution;
- Built-in battery can be recharged and used in 3 ways to adapt to different occasions.

## 3 MODES OF OPERATION

1. Strong mode - Applicable to public open space, home or office where you can carry around. Sustainable work about 14 hours
2. Power-saving mode - placed in closet, shoes cabinets and other small areas confined space for sterilization & deodorization. Continuous work for about 1.7 days.
3. Extreme power-saving mode - Use in confined spaces such as refrigerator (not freezer compartment). Continuous work for approximately 5 days.

## SPECIFICATION

Battery Capacity	400mAh/3.7V
Ion Conc	> 200,000,000 pcs/cm <sup>3</sup>
Working Current	30mA
Shut Down current	< 5uA
Charging Current	5V 250mA
Run Time	Strong Mode works for 14 hours; Power Saving Mode works for 2 days, Extreme Power Saving Mode works for 5 days.
Charging Time	2-3H
Size	43.3x33x67mm
Weight	90g
