

Company Profile

SMART TEAM HOLDINGS LIMITED was founded in 2010, which is a company committed in designing, R & D, manufacturing and selling varieties of portable power banks both for domestic and abroad market. Series of new-design products with multifunction have been produced here, including power banks, Solar power banks, charger flashlights, rechargeable hand warmers, car chargers, etc.

Our company has set up professional production bases in Shenzhen , with the floorage of 3500 square meters. Now we have more than 50 experienced workers. Our annual production capacity has reached 1 million PCS, with annual sales of 6 million US dollars. As one of the World power bank suppliers, we have enjoyed a good reputation from overseas customers.

Our worldwide sales network already covers countries in Europe, North America, Western Europe and Japan and South Korea etc. All the products in Smart Team have passed CE, FCC and ROHS certification. In order to fall into step besides the global motive power and renewable energy market, we develop perfect modern enterprise management system, which has been certificated by ISO9001:2000. Basing on this Quality Management System, we made a strict production process control to guarantee the product quality. With a highly qualify R&D team inheriting the theory that "people first, technology is the highest", we focus on the consumers' good experience from the products and then design portable power products for them that bring great convenience.

In addition, our professional production base can ensure providing high quality portable mobile power products and other value-added services for worldwide customers. Under the guidance of our brand philosophy's "quality first, customers first, market-oriented and customer-core", we continue to blaze new trails in mobile power bank production field and create much more value for customers.

To become century enterprise and get sustainable growth is our central goal, quality, integrity, innovation and responsibility are our power source. Our constant aim is to strike roots in China & HK and face the world, thus make great efforts to become one of the top leading manufacturers of portable power banks! We are on the way and your support is our treasury!

Industrial Park (Production)

Battery Test

Charge & Discharge Test Assembly

Assembly Line

Dream

Being the leading compang in the new energy field.

Value

Innovation, returns to shareholder, benefit workers, responsible for society.

Mission

Providing customers with valuable, environment friendly and clean power supply.

Service concept

Serve for customers, pursuit 100% satisfication of customers.

Solar Charger

Solar Charger

SZ-MSC2009-1

Mini Solar Charger (Aluminium housing)

- Solar Panel : 0.3W 65 mA 5.5V
- Lithium polymer battery : 1200 mAh
- Input : 5V 500 mA
- Output : 5V 700 +/- 50 mA
- Status Indicators : Battery Power reference (25%-50%-75%-100%), Charging charger and charging mobile
- Charge mobile with battery 1500mAh about half time
- Size : 43 x 94 x 105 mm
- Weight : 46 g

SZ-MSC2009A

Mini Solar Charger (Plastic housing) with LED flashlight

- Solar Panel : 0.3W 65 mA
- Lithium polymer battery : 1200 mAh
- Input : 5V 500 mA
- Output : 5V 700 +/- 50 mA
- Status Indicators : Battery Power reference (25%-50%-75%-100%), Charging charger and charging mobile
- Charge mobile with battery 1500mAh about half time
- 1 LED (4 modes) : ~ 40 hours
- Size : 43 x 94 x 105 mm
- Weight : 46 g

ST-TSF2013

Ultra-Thin Solar Charger with 4 LEDs (Aluminum housing)

- Lithium polymer battery : 1800mAh
- Solar Panel : 0.8W 150mAh
- Input : 5V 900mAh
- Output : 5V 1A
- Capacity indication : By 4 red LEDs from weak to strong in ascending order
- LED indicators : Instant power check, charging charger and charging mobile
- Charge mobile with battery 1500mAh about 80%
- 4 LEDs (2 modes) : ~ 15 hours
- Size : 131 x 60 x 9 mm
- Weight : 92.5 g

LED indicators 4 LEDs

SZ-PSC2010

Smart Solar Charger (Aluminum housing) 3 selections of output charging

- Solar Panel : 0.7W, 5.5V
- Lipo Battery : 3000 mAh, 1300mA High Capacity
- Input Voltage : 5V 500 mA
- Output Voltage/Current Selection : 5V 0.6A / 5V 1.5A (can charge iPad) / 9V 0.6A
- LED indicators : Instant power check by 4 red LEDs, charging charger and charging mobile
- Size : 103 (H) x 61 (W) x 13.5 (D) mm
- Weight : 115 g

ST-PSC2013

High-Capacity & Dual Output Solar Charger (Plastic housing)

- Solar panel : Mono-crystalline, laminated solar panel, 300 mA, 5.5 V, 1.65W
- Lithium polymer battery : 6000 mAh
- Input Voltage : 5V 500 mA-1000 mA
- Output 1 : 5V 1A
- Output 2 : 5V 2A
- Capacity indication : By 4 red LEDs from weak to strong in ascending order
- LED indicators : 2 green LEDs for the 2 USB outputs; 1 blue LED for solar charging
- Charge mobile with battery 1500mAh more than 2 times
- Size : 170 x 103 x 17 mm
- Weight : 250 g

Dual USB outputs 1A & 2A

ST-PSP2013

2-Fold Portable Solar Panel (Plastic housing) Large Surface Area for faster sunlight charging

- Solar Panels
One panel : Mono-crystalline, laminated solar panel, 300 mA, 5.5V, 1.65W
Two panels : 1.65W x 2 = 3.3W, 300mA x 2 = 600 mA, 5.5V
- TWO LED indicators
2 Blue LED during solar charging (Solar 1 & Solar 2)
- Technical Data
Size : 170 x 206 x 8.5 mm (two-fold open), 170 x 103 x 17 mm (closed)
Weight : 216 g

AS-8222two

LED Solar Lamp

- AC/DC/6V input / 6V output
- Power : 2.7W
- Intensity : 90-110LM
- No. of LEDs : 22 pcs 5MM LED
- Light duration : 8-10 hours
- Charging time : 8-10 hours
- LED shelf life : 50000 hours
- Battery type : 2000mAh lithium battery
- Battery life : > 500 cycle
- Material : ABS+PS
- Accessories : 2W laminated solar panel + connection cable + tip

LED indicator

22 LEDs

LED Remote Control

* All come with one input cable
All with short-circuit, over-charge and over-discharge protection
